How risky is it?

The value of the fund can go down as well as up. You could lose money.

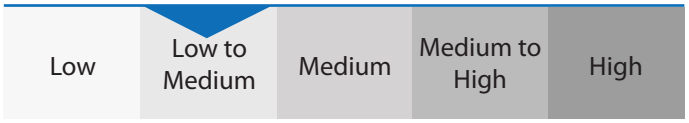
One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

ATB Investment Management Inc. has rated the volatility of this fund as **Low to Medium**.

Because this is a new fund, the risk rating is only an estimate by ATB Investment Management Inc. Generally the rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.



For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the Risks of Investing in this Fund?" section in the fund's simplified prospectus.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund.

How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund outside a registered plan, fund distributions are included in your income for tax purposes, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F1 units of the fund. The fees and expenses - including any commissions - can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. **Sales charges** - There are no sales charges applicable to Series F1 units.
2. **Fund expenses** – You don't pay these expenses directly. They affect you because they reduce the fund's returns.
