Management Discussion of Fund Performance

Investment Objectives and Strategies

The ATB International Disciplined Equity Fund ("Fund") aims to provide investors with long-term capital appreciation through a disciplined investment approach. The fund will primarily invest in equity securities of issuers located outside of Canada and the United States. This exposure may be achieved by investing directly in such securities or by investing in other funds that invest in such securities.

To achieve the Fund's objective, the sub-advisor uses a quantitative systematic investing approach with experienced qualitative judgment to construct a risk-managed portfolio diversified across regions and sectors.

Risk

There were no significant changes to the investment objective and strategies that affected the Fund's overall level of risk during the reporting period. The risks of investing in the fund and the suitability of the fund for investors remain as outlined in the Simplified Prospectus.

Results from Operations

The Fund's net asset value increased to \$358 million as at June 30, 2026, from \$255 million at the end of 2025. The change in asset value was due primarily to a combination of net inflows and positive investment returns.

Year to date, the Fund's Series I units returned 12.23%, underperforming the benchmark which returned 13.09%*. The Fund's return is after the deduction of fees and expenses, benchmark return does not include any costs of investing. See the Financial Highlights section for the management expense ratios and the Past Performance section for the returns of any other series, which may vary because of differences in management fees and expenses.

International equities (as measured by the MSCI EAFE Index) experienced solid positive performance in the first half of 2026 despite declining significantly in March as conflict gripped the Middle East. Easing geopolitical tensions and returning investor enthusiasm around artificial intelligence supported a market surge in the second quarter, and the Index finished the first half with a nearly double-digit gain. Japan was the top performing EAFE region, benefitting from an impressive Technology sector and a currency tailwind for exporters. Information Technology was the top performing international sector by far, despite a lackluster first quarter, while Energy shares closed the period in positive territory despite giving up most of the gains made early in the year. Value stocks outperformed growthier peers slightly over the period with leadership reversing between the first and second quarters.

* The benchmark is MSCI EAFE Total Return Net Index (CDN\$).

Recent Developments

The Portfolio retains a neutral posture as of period end, with most sector and region allocations within +/-3.0% of the benchmark. This reflects our typical approach to portfolio construction, and our emphasis on stock selection as the primary driver of relative performance.

There are no other developments or changes to report at this time related to the investment objectives, investment strategies or management of any of the ATB Funds, or to the composition or members of the independent review committee of the investment funds.

Related Party Transactions

The Fund is managed by ATB Investment Management Inc. ("ATBIM" or the "Manager"), a wholly owned subsidiary of ATB Financial.

From time to time, the Manager may, on behalf of the Fund, enter into transactions or arrangements with or involving the Manager or certain other persons or companies that are related or connected to the Manager (each a "Related Party"). The purpose of this section is to provide a brief description of any transaction involving the Fund and a Related Party.

The Manager provides the Fund with administrative services, including providing key management personnel to the Fund. In return the Manager receives an administrative fee which is allocated among the Series based on the average net asset value of each Series. Administrative fees paid by the Fund to the Manager for services provided by ATB Financial and its subsidiaries were \$5,213 for the period ended June 30, 2026 (\$634 - June 30, 2025).

As at June 30, 2026 ATBIM held 5,000 redeemable units of Series E, valued at \$57,329 and 15,101 redeemable units of Series I, valued at \$183,228. In aggregate representing 0.07% of the total net asset value of the Fund.

ATBIM has established an independent review committee ("IRC") which acts as an impartial and independent committee to review and provide recommendations or, if applicable, approvals with respect to any conflict of interest matters. IRC oversight ensures that there are no conflicts of interest that would be harmful to unitholders.

During the Period, the Fund relied on standing instructions provided by the IRC for any of the following related party transactions that may have occurred in the Fund (each, a "Related Party Transaction"):

(a) investments in a class of non-government debt securities and/or equity securities of an issuer during the period of distribution of those securities to the public and/or the 60-day period following the distribution period where ATB Capital Markets Corp., an affiliate of the Manager, or any other affiliate of the Manager acted as an underwriter in the distribution. The Fund did not pay any commissions directly to ATB Capital Markets Corp., in relation to these transactions; and

(b) trades in debt securities in the secondary market with ATB Capital Markets Corp., an affiliate of the Manager, that is trading with the Fund as principal.

The IRC issued its standing instructions on the basis that any Related Party Transaction (i) is made free from any influence by an entity related to the Manager and without taking into account any considerations relevant to an entity related to the Manager; (ii) represents the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; (iii) aligns with the Fund's stated investment objectives and strategies, (iv) is in compliance with the Manager's policies; and (v) achieves a fair and reasonable result for the Fund.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the six months ended June 30, 2026 and the fiscal years indicated. The information on the following tables is based on prescribed regulations and as a result, is not expected to reconcile because the increase (decrease) in net assets from operations is based on average units outstanding during the period and all other numbers are based on actual units outstanding at the relevant point in time.

⁽²⁾ Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from investment operations is based on the weighted average number of units outstanding over the financial period.

⁽³⁾ Distributions were paid in cash, reinvested in additional units of the Fund, or both.

Ratios and Supplemental Data

PERIOD	2026	2025
Total net asset value (000's) ⁴	\$328,663	\$254,369
Number of units outstanding ⁴	27,088,178	23,530,208
Management expense ratio ⁵	0.08%	0.11%

Net asset value per unit	\$12.13	\$10.81

⁽⁴⁾ This information is provided at June 30, 2026 and December 31 of prior years shown.

⁽⁵⁾ The Management expense ratio (MER) is based on total expenses (excluding commissions and other transaction costs), and the Fund's proportionate share of the MER, if applicable, of any underlying funds and exchange traded funds in which the Fund has invested, allocated to that series for the stated period and is expressed as an annualized percentage of daily average net asset value during the period. The Manager, at its sole discretion, waives management fees or absorbs expenses. Such waivers and absorptions can be terminated at any time. The MERs of the Fund are shown both with and without the waivers and absorptions.

⁽⁶⁾ The trading expense ratio represents total commissions and other transaction costs expressed as an annualized percentage of daily average net asset value during the period.

⁽⁷⁾ The Fund's portfolio turnover rate indicates how actively the Fund's Advisor manages its portfolio of investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.

There is not necessarily a relationship between a high turnover rate and the performance of a Fund.

Management Fees

No management fee is charged for Series I units of the Funds. Management fees for Series E units are negotiated and paid by the unitholder directly to the Manager.

Past Performance

The performance information shown assumes all distributions made by the Fund were reinvested into additional units of the Fund. The performance information does not take into account sales, redemptions, distributions or other optional charges that would have reduced returns or performance. Past performance of the Fund does not necessarily indicate how it will perform in the future.

Investment performance is not provided for a Series that has been available for less than one year. Series E was made available to investors on December 1, 2025.

Year by Year Returns

The following bar charts show the performance of each series of the Fund for each of the financial years shown and for the six-month period ended June 30, 2026. The bar charts illustrate how the Fund’s performance has changed from period to period and also indicates in percentage terms, how much an investment made on the first day of each financial period would have increased or decreased in value by the last day of each period.

Series I

The inception date of Series I was June 10, 2025. The inception date of Series E was December 1, 2025.

Caution Regarding Forward-Looking Statements

This report may include forward-looking statements about the Fund. These statements "Results from Operations" and "Recent Developments" may involve, but are not limited to, forward-looking statements about the Fund and may make references relating to strategy, risks, expected performance and condition. Forward-looking statements typically use words like "anticipate", "believe", "estimate", "expect", "intend", "may", "plan" or other similar expressions or future or conditional verbs such as "could", "should", "would" or "will".

By their very nature, forward-looking statements require numerous assumptions and are subject to inherent risks and uncertainties, both general and specific, concerning future performance, strategies or prospects and possible future Fund action. A number of factors could cause actual future results, conditions, actions or events to differ materially from the current expectations, estimates, intentions or projections about future general economic, political and other relevant market factors in North America and internationally including, but not limited to, interest rates, foreign exchange rates, equity and capital markets, business competition, technological changes, catastrophic events and the general business economy. Such factors assume no changes to applicable tax, other laws, government regulation or legislation.

The Fund cautions readers that the aforementioned list is not exhaustive. Anyone reading and relying on forward-looking statements should carefully consider these and other factors that could potentially have an adverse affect on the Fund's future results as there is a significant risk that forward-looking statements will not prove to be accurate.

The reader is reminded that the cautions listed above are not exhaustive. The Fund does not undertake to update any forward-looking statement contained in this report.
